

Four Seasons Estates ROC,INC.

Construction Request

Name: _____ Unit # _____

Phone #: _____

Request: _____

Attention:

I understand that the change/improvement I wish to make may require a permit from the City of Largo and that I or my contractor are required **BY LAW** to obtain said permit **BEFORE** commencing the project.

If your request is found to need a permit from the City of Largo, you will need a letter from our Office. Once you obtain the permit, we will need to have a copy for your file as well.

I Understand that should any digging be done near the vicinity of my unit that I am required to contact underground utilities by calling 811 to ensure that my project will not interfere with any existing utilities or water lines. You also must have Locator Services / 811 provide written documentation of all utility clearance. Failure to provide Four Seasons Estate Management with the required written documentation for utility clearance from Locator Services / 811 prior to any digging will make **you** responsible for the cost involved to fix any damages done. Four Seasons Estates Management will not give a final project approval until the required documents are received by Locator Services.

I also understand that if in the future, any part of this project that is on or within Four Seasons Common Ground and needs to be altered for any reason, **it will be at the owners' expense to replace it.**

Hours of Work are 8:00 AM to 6:00 pm Monday through Saturday only.
